

We cannot provide a list of the acceptable swabs and/or transport media, due to the list changing so rapidly. Please follow these instructions to get to the current acceptable list:

- 1) Go to: <https://www.fda.gov/medical-devices/emergency-situations-medical-devices/faqs-diagnostic-testing-sars-cov-2#general>.
- 2) Scroll down to “What If I Do Not Have...?”
- 3) Click on **“Q: Q: I am having trouble obtaining viral transport media/universal transport media (VTM/UTM) and a flocced nasopharyngeal swab to collect and transport patient samples. Are there alternatives that I can use?”**
- 4) This section includes a list of all swabs and transport media currently approved. Please verify your supplies are on this list. If so, we will be able to run the diagnostic test.
